

FALLING

**Come on
Let's fall into darkness**

**All the feelings
All the senses are gone**

**All I can do is run away from here
Run away**

**Come in
Let's fall into lightness**

**All the feelings
All the love is lost**

**All you can do is run away from here
Run away**

**Come on
Let's run into blindness**

**All the heart aches
All the feelings are gone**

**All I can do is run away from here
Run away**

**Come in
Let's fall into numbness**

All the doors and windows are closed

**...
The dream is over
Our waste remains**

Get off my feet into the night that stains

**And holds a cold mirror
Reflecting my weaknesses**

**Closed broken windows
And cold dark remains**

**Scars still opened
Carved in stone**

**...
Come on
Let's fall into blindness**
