

HIDDEN PLACE (FIRST SENTENCE)

**The city is on
I can't breathe
My heart breaks
My eyes can't see**

**The crowd shakes
My soul is free
The fire goes on
In the ground beneath**

**You and I
You and I**

**...
Every right is a wrong
Every word is a song
About you and I**

**...
The world is falling into pieces
Beneath the surface**

**...
The end counting bodies
I've explored
Found just a glimpse of what you are**

**...
Caught between reason and despair
I've travelled away
So far**

**...
I live in a hidden place
Where the end is closer than your love**

**...
It looks like we're talking in a language of strangers
You're a stranger to me
You're the word I seek
You're the pain I feel**

**Taste this wine
Love is down inside of you and I
You and I**
