

SHINE

**can see the sun, shining...
then shut my eyes
to find my heart stopped for you**

**a resting place
filled with crawling memories**

**I can't see you shine
and rest alone
like a desert street
a sunken ship that you forgot to seek**

**I look above to see the stars
I touch your hand to feel your heart**

I feel undone when you don't shine for me

I feel apart

**rise up and heat my world
open your arms**

let me see you shine

see you shine

shine

shine

**untouched, I can't see you shine
been left alone**

**like a desert street
a sunken dream that you forgot to seek**
